

Technical Support Engineer

Sydor Technologies LLC — Location: Rochester, New York

COMPANY OVERVIEW

Sydor Technologies (www.sydortechnologies.com) is a global leader providing comprehensive, customized solutions for the most complex measurement challenges in the defense, energy, security and research industries. We pride ourselves on being a trusted, collaborative partner for our customers while solving technical problems with innovative solutions. Sydor's US based operations specialize in high-speed imaging systems and diagnostics. The company's UK operations specialize in ballistic and impact testing systems, as well as scoring systems. The company operates in 33 countries around the world with its world headquarters located in Rochester, NY.

Sydor Technologies is a high growth, small business, focused on growing organically as well as through strategic acquisitions. The company has been featured as one of the fastest growing companies in Rochester (NY) Top 100 and in the top 25% of Inc. Magazine's 5000 fastest growing companies nationwide. Our success is a testament to our employees and their commitment to customer focus, team work and high performance. Our employees are the best and the brightest in the industry and are the company's greatest asset.

JOB OVERVIEW

The TSE will manage customer specifications development, product applications, product customizations/developments, project pricing and presentations. Customers are scientists with the global National Labs and Light Sources/Synchrotrons for solutions in imaging, photon/X-ray/Neutron detection, in time domains of femtosecond to ballistic speeds.

TRAVEL REQUIREMENTS

Travel to customer sites and to technical conferences (generally all USA locations) is required. Position is based in Rochester, NY, but remote locations can be considered.

Submit cover letter and resume/CV to OPPORTUNITY@SYDORTECHNOLOGIES.COM.

Sydor Technologies is an equal opportunity employer: "M/F/D/V – EOE".
